The boss says lets move it on. The devil will be in the details of the SAP that will need to be developed...

cheers,

Brad,

Back at you, with just a couple of questions. I have copied our new Water Science Center Director, Amy Beussink, as I think these will provide her a great background on the IA process and to ensure the proposed IA mod meets with her approval.

Cheers,

John

John,

I've amended the IA and supporting docs. Take a quick and look and see if they are good to go. Otherwise, feel free and edit where needed. Once I hear back from you, I'll route to Ina to start moving them forward for management's concurrence.
